

Collingwood Regional Airport CNY3

Collingwood Ontario Canada

The Collingwood Regional Airport is situated on 392 acres of land in Clearview Township. It is close to the Blue Mountain ski hills, golfing and Wasaga Beach, the world's longest freshwater beach.

This scenery is designed for the GA VFR flight enthusiast...simmer who like short flights of half-an-hour to 1 hour in length, and who fly low and slow.

The airports in this scenery have been re-positioned in the flight simulator to mesh with Google and Ultimate Terrain's roads.

Ultimate Terrain can be purchased at <http://www.flight1.com/>

Ultimate Terrain is not a necessity but it will greatly enhance your flying experience.

Instructions

1: Unzip to a temp folder...open the temp folder and you will find an "exe" file.

2: Run the EXE install and when asked direct it to MAIN FS9 Directory. Once installed in your Addon Scenery folder, you will need to go into your scenery library within FS9 and activate this scenery.

If you want to place the scenery to some other spot on your HD, simply drag the Collingwood CNY3 folder from Addon Scenery and place it where you wish.

Scenery library priority order is listed below.

Collingwood CNY3 < Ultimate Terrain

3. Download and instal the latest version of Ontario Landcalss from the FS2004 Download Section on our site.

Recommendations:

For GA light aircraft, set the zoom for both 2D and VC cockpits to 1.25 for a realistic feel.

Turn collisions OFF.

Turn reflective water OFF.

Make sure Scenery Complexity is set to Extremely Dense.

For Medium Systems: 2-2.6 GHz:

Turn aircraft shadows OFF.

Turn ground shadows OFF.

Obtain FSW frame rate friendly clouds or use clear skies.

Lock frame rate at approx 24-30.
