

Downtown Scenery Development Group

Present:

Houston downtown expansion pack

Thank you for downloading our “Houston downtown expansion pack” scenery.

This scenery is intended for an update of the default Houston downtown area, and include 6 new buildings:

- 1) Morgan Chase tower
- 2) Wells Fargo plaza
- 3) Fulbright tower
- 4) 5 Houston Center
- 5) Centerpoint Energy Plaza
- 6) Continental Center One

The scenery is intended only for the Flight Simulator 2004 version, installation under different version of the Flight Simulator is at your own risk and no support is offered.

For Flight Simulator 2004 installation support:

<http://dsdg.webs.com/apps/forums>

dsdg@fastwebnet.it

Installation:

In the zipped file you will find:

DSDG_Houston.exe	:	the automated installer
Readme.pdf	:	this file
Readme.txt	:	Text version of this file

Just run the automated installer, this executable is able to find the path of your Fs2004 main folder.

If you want to install it in another folder just browse for your folder and install in it.

By default the scenery will be installed in this folder:

`“....\microsoft games\flight simulator 9\addon scenery\DSDG`

scenery\Houston\" after you run the installer start the simulator and activate my scenery, that's all.

Uninstall

First, you have to deactivate the scenery, then just browse in the main Windows menu, for DSDG Houston menu, and select “*uninstall*” that's all

The scenery is compatible with “Ultimate Terrain USA” however due the impossibility to move all other Fs9 default building you will find all the Houston downtown slightly misplaced, is not my fault but seems that all the Houston default city is misplaced.
