

Northrop F-5A Freedom Fighter of H.A.F. 341st and 349th Sqdrns for FS2K2

GENERAL

First of all I'd like to thank Denis da Silva for giving me the permission to repaint his wonderful F-5A original model. Thank you too, for downloading this aircraft repaint. The Northrop's F-5A Freedom Fighter used to be one of the most favorites and effective aircrafts ever built. This version has been specifically created as an honor to 341st Sqdr based in Nea Anchialos - Volos, Greece and 349th Sqdr of Hellenic Air Force based in Larisa, Greece where the 2 aircrafts presented in this [F-5A_HAF_v2.zip](#) package used to belong.

CREDITS

- Original model and paint (Brazilian Air Force) by **Denis da Silva** denissilvaoliveira@ig.com.br & **Daniel da Silva** dsnirvana@ig.com.br
- Panel design, gauges coordination (included in the earlier [F-5A_HAF_v1.zip](#) package) etc by the repainter **Nick Karatzides** pathfinder@mail.gr
- Hellenic Air Force 341st Sdrn's "Desert" (ex-Jordan) repaint, 349th Sdrn's "VietNam" type texture repaint, flight dynamics (created and tested to the limits...), FS2K2 screenshots by **Nick Karatzides** pathfinder@mail.gr
- Aircraft infos & data by Northrop and Hellenic Air Force.

INSTALATION

This is an **UPDATE** addon for your FS! You should already have downloaded and installed the **earlier** [F-5A_HAF_v1.zip](#) package found by the name [F-5A Aegean blue](#) in the most known FS file libraries.

- You should already have a sub-folder into `C:\Program Files\Microsoft Games\FS2002\Aircraft` named as "**F-5A Freedom Fighter Hellenic Air Force**".

- COPY & PASTE all the contents of the present [F-5A_HAF_v2.zip](#) package into destination [C:\Program Files\Microsoft Games\FS2002\Aircraft\F-5A Freedom Fighter Hellenic Air Force](#).
- **OVERWRITE** any existing files with the same name if it is needed so.

Anyway, after a successful installation, you are now OK to start your FS2K2 and go flying. To select this aircraft, you'll find it under the manufacturer's name of **Northrop** into the **Select Aircraft** menu of FS2K2. Read carefully the following pages to learn about aircraft's specifications and how you can fly this aircraft in FS2K2 successfully.

NOTES

- You must already have installed the [F-5A_HAF_v1.zip](#) package found in the most known FS file libraries before downloading the [F-5A_HAF_v2.zip](#). The zip file contains 2 aircrafts used to operate with Hellenic Air Force's colours. The first is an ex-Jordan Royal Air Force "Desert" textured armed F-5A and the second is a "VietNam" type textured F-5A repaint. The first F-5A represents an aircraft flown in service of 341st Squadron of Hellenic Air Force after 1990 and the second one represents an aircraft flown in service of 349th Squadron of Hellenic Air Force during the '80ties and '90ties in intercept / bomber role. This [F-5A_HAF_v2.zip](#) package is also fully compatible with Microsoft's FS2K2. The [F-5A_HAF_v2.zip](#) package uses the **REAL** like flight dynamics also used in [F-5A_HAF_v1.zip](#).
- This aircraft package is not meant to be artistically brilliant, but to give a faithful as possible rendition of what it is like to fly this aircraft. It is also frame rate friendly.
- This Hellenic Air Force's "Desert" & "VietNam" F-5A aircraft repaints archives are **STRICTLY FREEWARE ONLY**. and NO COMMERCIAL GAIN BY ANYONE IS ACCEPTABLE. This repaint should NOT UNDER ANY CIRCUMSTANCES be uploaded and or displayed on payware FS sites or ANY of its associated subsidiaries. If it is, or available on any website offering this archive in return for money, any appropriate legal action will be undertaken using appropriate International copyright laws.
- The re-painter of this package is in no way liable for any damage it may cause from incorrect use (however unlikely that it may be).
- Questions & comments, bug reports etc can be made to my E-mail address pathfinder@mail.gr
- This Hellenic Air Force's "Desert" & "VietNam" type textured F-5A repaints (original model by Denis da Silva) should NOT be uploaded to ANY InterNet site without the repainter's confirmation.
