

FS2Crew Start Center

Start Center Current as of: February 2008

Summary:

This program will install the latest version of the FS2Crew FS9 and FSX Start Center on your system.

As new versions of FS2Crew are released in the future, the Start Center (and this install program) will be updated accordingly.

This program will "attempt" to remove any pre-existing FS2Crew Start Center short-cuts that pre-exist in the Start -> All Programs -> FS2Crew folder and on your desktop.

In their place, two new short-cuts are added that take the place of the deleted short-cuts.

The new short-cuts are called:

FS9 FS2Crew Start Center FS9 Feb 2008

FSX FS2Crew Start Center FS9 Feb 2008

Should the Start Center installer not be able to locate and delete the pre-existing icons, you may delete the old icons and short-cut links manually.

Vista Users:

If you experience issues:

Turn off UAC, disable DEP, and run the Start Center in XP SP2 Compatibility Mode.

Support is available via the FS2Crew Support Forum at Avsim,

Thank you for your support from the FS2Crew Team!
