SPRAYSYSTEM IS ENABLED !

When the useful load is empty, the spraysystem is disabled.

Then it works only when useful load is not equal 0

### Air Tractor AT - 401 B

The AT - 401 belongs to a highly specialized family planes.

It's an stout airplane, docile and noble in fly, but you need a lot of concentration in the dust cropping works on the plantations, or specially in the forrest, in tasks of fire extinguishing, so dangerous

### THE VIRTUAL MODEL
