## **Installation**

1. Copy & Paste the “norfolk-island ” folder into your FSX/Addon Scenery Folder.
2. Copy & Paste the “static-library-objects” folder into your FSX/Addon Scenery Folder.
3. Copy & Paste the "YSNF\_ADX\_GVF\_ALT" file into your FSX/Scenery/World/Scenery" Folder.
4. Activate the “norfolk-island” & “static-library-objects” as you would any new scenery in FSX

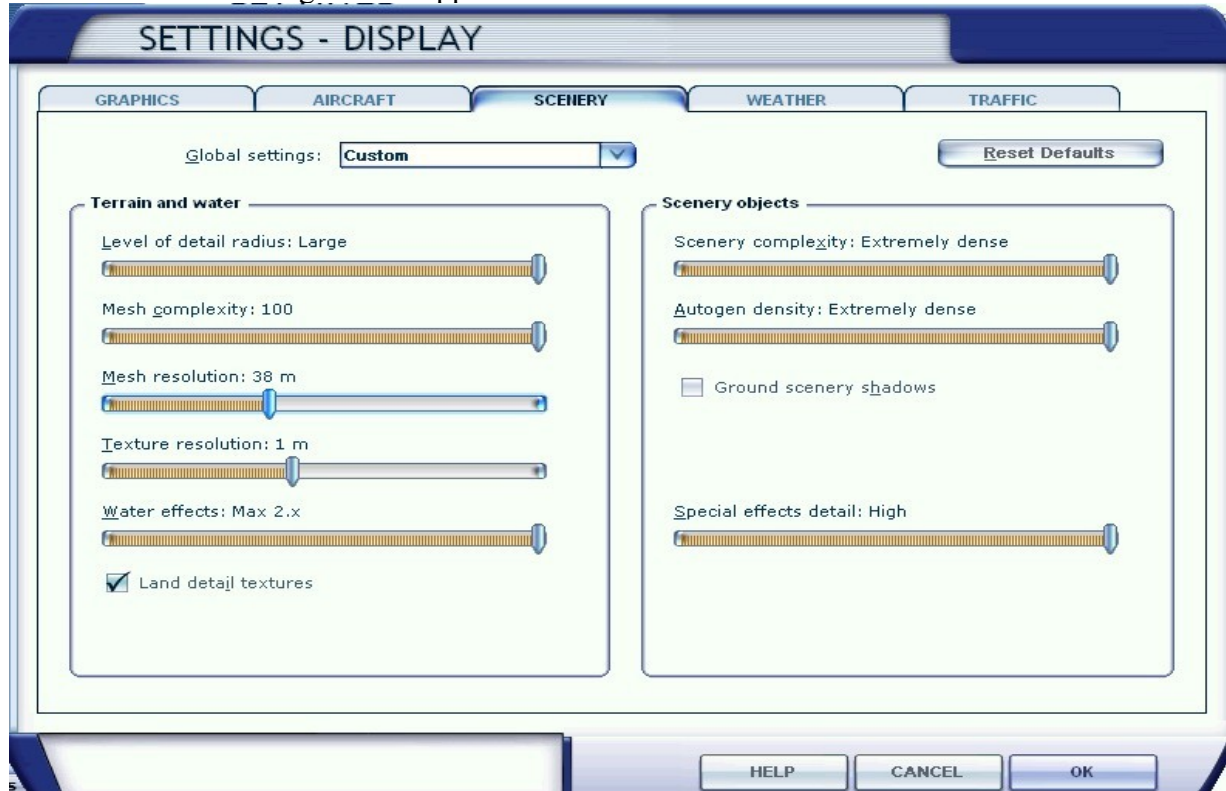

## **FTX/OZx Users PLEASE READ**

You may find that you already have many files already associated with Norfolk Island and you may have to “disable” these files.

1. Search inside your “FSX/Scenery/World/Scenery" Folder and make sure you do not have another YSNF ALT file installed... if you do please remove that file.
2. Also using your “Windows Search Function” do a Search for “norfolk” and PLEASE disable any files that are not part of this Package.

## **Settings**
