

FS2004 Realistic Flight Dynamics for Boeing 777-300

This is an upgrade for 777-300's flight dynamic for Microsoft Flight Simulator 2004 A Century of flight. This Upgrade provided according to Boeing information about 777 and is very close to real dynamics of 777. Now like a real 777, it is hard to land this giant and you need to be more careful. I hope you enjoy this!

Features

1. Realistic Flight Dynamic (Try to land the aircraft with cross wind!!)
2. Corrected Lights Position
3. Corrected Contact Points
4. Corrected Max Gross Weight
5. Corrected Autopilot Function
6. Corrected Flap-Up Stall Speed
7. Corrected Full Flap Stall Speed
8. Better Control When You Use Joystick.

Installation

Extract the content of the zip file into a temporary folder and then put "Boeing777-300.air" and "aircraft.cfg" into "b777_300" folder in your aircraft folder and overwrite the main files.

Copyrights

This upgrade provided as a Freeware. Any commercial use is prohibited.
