

Scenery Tempelhof *X* (Testversion)

Mega Airport Tempelhof 2.0

Installation:

Put „THF2.0“ into your Addon Scenery folder and Activate it in your Library.

Attention!:

This is only a testversion.

The scenery contains Mistakes that are known to me.

The biggest Mistakes:

- The left wall under the roof is transparent
- The script „Berlin-Tempelhof“ is transparent too.

There are no bigger Mistakes.

Thank you for your understanding!

Have Fun!

Scenery Tempelhof *X*

a flight in a new dimension!
