# INTRODUCTION

Welcome to the UKMIL Royal Air Force CHINOOK HC3. This aircraft has been designed in GMAX for Microsoft Flight Simulator 2004. In this BETA pack, you will get

- 1 Versions. [but with various loads]
- 2 Texture Sets

### **COPYRIGHT**

This aircraft is the property of UKMIL and as such, may not be modified in any form. This includes any part of the aircraft features except the textures. This helo may not be uploaded to ANY other site without prior consent of the UKMIL team. The files in this pack are classed as freeware, and may not be sold, or placed on any form of media for distribution.

### **REPAINT POLICY**

This aircraft may be repainted in other textures, and there is a paintkit available to UKMIL CLUB members on the UKMIL website. Repaints are allowed, providing the following restrictions are met.

-  Repaint packs may only include textures, and no aircraft files
-  Any use of the supplied Paintkit is credited in the README
-  Repaints are allowed to be uploaded to the UKMIL website, and any other webiste!

Please make note of these repaint restrictions, as any repaints found on other download sites without the consent of UKMIL will be in breach of the copyright rules.

### **DISCLAIMER**

UKMIL takes no responsibility for the files in the pack. They are released at the user's risk only, and any damage to the end user

machine, both software or hardware, can not be directed at the UKMIL files, or designers.

### **VA USAGE**

This Helo is the property of UKMIL, and it's use is granted to all persons who download this for personal use only. This Helo **MUST NOT** be used by any VA without the consent of UKMIL. This includes RAFVIRTUAL.COM, who must not use, promote or place any pictures of this helo on their website. This is enforceable by UK copyright law.

# **Contributions**

## **Model Designers**

The Gaffer

## **Panel Designers**

UKMIL Gaffer

## **Texture Designers**

UKMIL Gaffer

## **CFG and AIR File Designers**

UKMIL Gaffer, with assistance from Greg S, THORNY, SneakySnake, and WingZ of Silence

## **BETA TESTERS**

Thanks to the UKMIL CLUB members for their feedback on this. If you want sneak previews of the ukmil aircraft, then join the Club over at <http://www.ukmil.org.uk>

## **OTHER INCLUSIONS**

Mainly, a BIG thanks to **Dave Maltby**, for allowing us to use his original freeware gauges also thanks to Greg S, THORNY, SneakySnake, of WingZ of Silence for assistance with the sounds and heatblur effect.

# GENERAL FEATURES

## RAMP

The ramp can be opened in two phases. The first, is the ramp tongue. This can be opened and closed using the Shift+E command

Next the Main ramp may be lowered and raised using the SHIFT+E then 2 command

The doors can also be opened via the OVERHEAD panel, using the two buttons on the right above.

## **EXTERNAL LOADS**

You will also see from above, the two switches on the left. These will allow you to show two different external loads. The first is the standard ISO CONTAINER. The other will show a small basic army canon. Once you have selected your load, it will show in the external view, as long as you are ABOVE 20ft. Below this, it will automatically disappear.

## **CREWDOOR**

The door can be opened/closed by using the TAILHOOK command

## THE PANEL

- [1] MAIN RADIO
- [2] OVERHEAD PANEL SHOW/HIDE
- [3] AUTOHOVER PANEL SHOW/HIDE

## OVERHEAD PANEL

- [1] AUTOHOVER PANEL
- [2] FUEL ON/OFF [ROTORS START/STOP]
- [3] PITOT AND DE-ICE
- [4] LIGHTS
- [5] MAIN BATTERY

THE LANDING LIGHTS ARE AUTOMATIC, AND WILL ROTATE UP AND DOWN WHEN SWITCHED ON OR OFF.

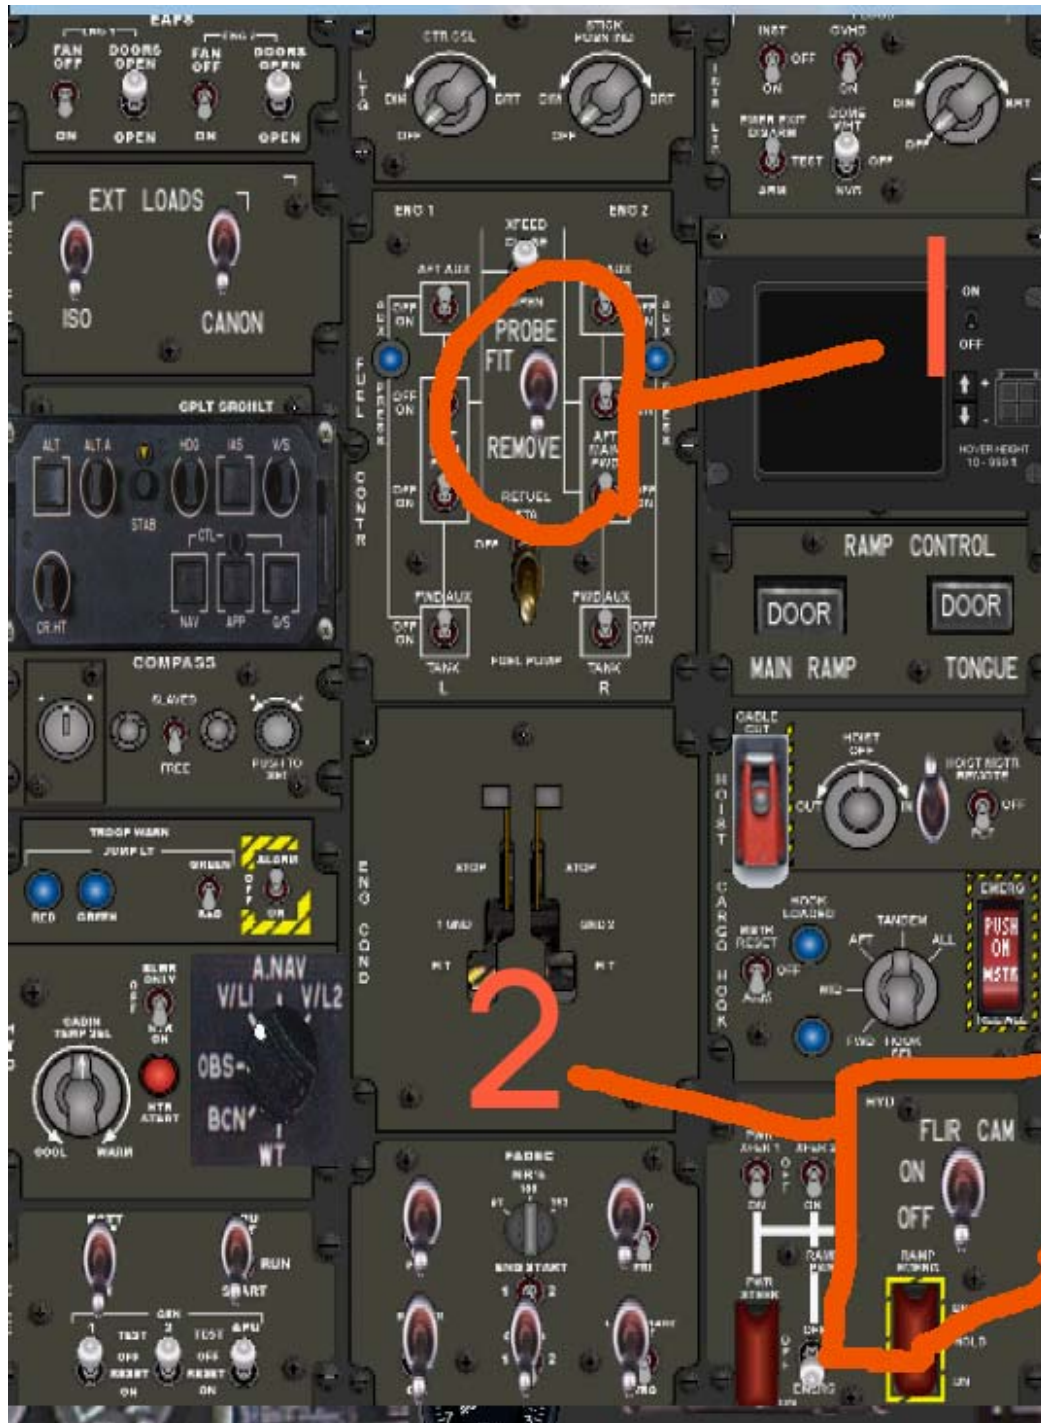

## **EXTERNAL OPTIONS**

The HC3 uses XML codes to ‘switch on’ the external features, instead of using different models. The model comes with 2 bolt on options. These are the REFUEL PROBE and the FLIR pod

In order to make these items visible, you need to switch them on using the OVERHEAD panel.

Item 1 shows the REFUEL PROBE switch, with item 2 being the FLIR CAMERA

Have fun
