

## **111(F) Squadron Phantom FG 1s RAF Leuchars 1986**

This package contains 17 repaints for the NMAI F-4K Phantom FG 1 representing the aircraft of 111(F) Squadron based at RAF Leuchars in 1986.

This package requires the NMAI\_F-4K\_Phantom\_FG.1\_RAF\_Late package by Nick Black and Michael Pearson, available from Avsim.com.

<http://library.avsim.net/eseach.php?CatID=fs2004aia&DLID=170449>

No 111(F) Squadron reformed in July 1974 at RAF Coningsby to operate the Phantom FGR 2. In 1975 they were relocated to RAF Leuchars in 1975 where they joined 43 Squadron. When the Royal Navy decommissioned HMS Ark Royal in 1978, 111(F) squadron replaced their Phantom FGR 2's with the ex-navy FG1's. 111(F) squadron then continued to operate their Phantoms from RAF Leuchars until January 1990 when the Phantoms were replaced with Tornado F3's. 111(F) Squadron then continued to operate their Tornados from Leuchars and became the last RAF squadron to operate the type, finally disbanding in March 2011.

This package also includes flight plans for the aircraft based at RAF Leuchars. I recommend the RAF Leuchars Scenery by Stephen Legg, available from the Airfield Construction Group (ACG). <http://www.airfieldconstructiongroup.org/forum/>.

## 111(F) Squadron Phantom FG 1s RAF Leuchars 1986

These repaints were designed for FS9. I don't have FSX so I don't know if they will work with it or not.

Many thanks to Nick Black and Michael Pearson for their excellent F-4 Phantom models. Thanks also to Martin Wright for his DXTBMP programme, to the developers of GIMP, which is an excellent freeware graphics editor, Lee Swordy for his TTools programme and to all the other people out there who give freely of their time and experience to help others enjoy our hobby.

Derek
