*Taxiway Lights, Threshold Lights, Approach Lights*

*Approach Lights flash, Obstruction Lights*

*Since 1993 the airport by the Air Force of the Armed Forces as of the Aerodrome and Airport Neubrandenburg-Trollenhagen GmbH is used as a regional airport.*

*The civilian terminal was inaugurated in 1995. Since the Rostock Airport was closed to the G8 summit, all flights were diverted here. Also serves the heliport of police, federal police and army. In 2006, the several years of the domestic [Regional Air](#) three times a week operated Munich target has been set. 2007 Greece was served with individual flights. From May 2009, joined the Bulgarian airline [Hemus Air](#) to the airport once a week with Varna. Due to low utilization of these flights were discontinued prematurely in the same year.*

*Parts of the former estate of the 3rd LVD air forces of the NVA were taken over by the armed forces and are now used by the Air Force Maintenance Group 22 of the Air Force Maintenance Regiment 2nd*

*Expected in 2015 as part of the deployment concept for 2011 was the military part of the airport to be closed.*

*The first step in this direction began in 2012 but with the attitude of convoys through the IL-76 to Afghanistan.*

## Installation of the Scenery:

*In the .zip file there are 4 folders.*

*Addon Scenery*

*Effects*

*scenery*

*usedlibrarys*

*unzip to C:\ Program Files \ Microsoft Games \ Flight Simulator 9. In this case please make sure that the path to the simulator can vary also. Already should have a ez-library folder in the Addon Scenery directory for it, so should the content of the used librarys folder are copied into this. If not available then simply put the usedlibrarys folder in the Addon Scenery directory and sign below the scenery in your scenery library.*

## AI-Traffic:

*Who would it realistically, the models for the AI traffic even install additional.*

*License from legal reasons, it is forbidden to us but unfortunately the aircraft types which are used here for the AI traffic to grab the download. One can, however, these separately and free of charge from the Internet.*

*Knowledge in the installation of AI aircraft and the installation of several texture packages, we assume at this point.*

*IL-76 TD Basepack:*
